

Practical 5: Catching Up

(Version 1.1)

1 Overview

There is no new practical for this week. Instead, use the time to finish up Coursework 1. If you are done with Coursework 1, then use the time to catch up on unfinished bits of the previous practicals. (Remember that each practical has a bunch of optional bits at the end. Did you work through all of those?) If you have done all that, take a break — you've earned it.
